

RUN FOR RWANDA SPONSORSHIP

I'm running in the 3rd annual Run for Rwanda and am seeking sponsorship! Please consider pledging support towards one of three community development projects that fight poverty and provide sustainable change in Kibali, Rwanda. I'll run to offer hope for a brighter future for the people of Kibali- please join me in changing lives!

The top priority for Kibali is completing the community health clinic. Sponsors like you have helped fund construction of the pharmacy and maternity wards, but the hospital wing and HIV/AIDS clinic need to be built. Pledge to help them finish the job.

Secondary school fees are out of reach for most youth in Kibali. You can help them change their future and the world with a pledge for school scholarships.

Livestock, such as goats and pigs, means more than just food in Kibali; they provide fertilizer and future income. Consider a pledge for a pig as economic development.

Your pledge to sponsor me for the Run for Rwanda can be designated towards any of these projects. Please let me know soon how you want to help. Then join me on race day, August 7th, at 8:00 AM at Cottonwood Creek Park. Cheer me on, enjoy live African music, buy African handicrafts, learn more about Rwanda, and join the fun!
